INTEREST AND HOBBIES

- Graphics Design: I made multiple designs during my college days and am interested in learning more about the creative industry of graphic designs.
- Video Editing and Creating: Produced a documentary films as part of my Final year project. With experience in Adobe Premiere Pro, I am interested in improving my skills in editing and developing videos.
- Keeping up with ICT news: I admire the new changes technologies bring to the world. Since childhood, I was interested in electronic gadgets such as mobile phones and computers. Still now I am infatuated by the user interfaces, functions and improvements to living brought about by newly emerging devices and technology.
